OBJECTIVE

I am a dynamic and results-driven Full Stack Developer with a **passion** for creating robust and scalable applications using the **MERN** (MongoDB, Express.js, React.js, Node.js) **stack**.

Engineered responsive user interfaces using **React.js**, **implemented** efficient server-side logic with **Node.js** and **Express.js**, and **utilized MongoDB** for seamless data storage.

Passionate about staying at the forefront of **MERN stack technologies**, my destination is to contribute creatively to cutting-edge projects. Actively seeking opportunities to **collaborate** with forward-thinking professionals and organizations that value **innovation** and **excellence in software development**.
